

*An AFFECTED PROVINCIAL'S SUPPLEMENTAL:
Pocket Square Folds*

✦ No. 12: *The* INVERTED PUFF ✦

(Possibly the most flamboyant and daring of folds, casually executed. Ideal for silk pocket squares.)

- a) Hold the unfolded square by its center,
with all four points draping down.

- b) Gather and fold the square at its midpoint,
forming a kind of loose “puff” at the top.

- c) Being the opposite of the puff, we place the “puff” on the bottom,
with all the points facing up and out the top of the pocket.

- d) Place into pocket, and adjust those delicious points.
The effect should be floral, leafy.

Whimsy wishes he could say otherwise, but he cannot claim in any way to be the originator of this fold. Nevertheless, he is proud to act as its steward, and hopes you might wear it in good health. Enjoy!
